

IS ANOTHER PROPHECY BEING FULFILLED?

Are we still too stupid to listen?

“The presidents of Venezuela and Iran boasted Monday that they will defeat U.S. imperialism together, saying the fall of the dollar is a prelude to the end of Washington's global dominance...”

This article http://www.breitbart.com/article.php?id=D8T107680&show_article=1 goes on to describe what could be seen as further developments towards the fulfillment of certain ominous, long foretold events in the Henoah Prophecies:

"Not only will America, but also all other Western industrial countries which still live at the beginning of the new millennium in the delusion that they could dominate and rule over underdeveloped nations, i.e., Third World countries, will not only soon lose influence over these but must defend themselves against them.

“According to the prophecies of Henoah, the truth about industrialized countries is that they only seem to appear to be true civilizations, but in fact they are not; because more and more, at the end of the 20th century and at the beginning of the third millennium, they will disregard all true love, true freedom and true wisdom as well as true peace along with all values of humaneness and all values of men's and women's true being.

“But not even all the terrible happenings will hinder the USA in continuing to proceed with her actions against all countries. Even when the North American continent will be stricken by the most terrible catastrophe which has ever been recorded, evil military powers will wreak havoc with computerized and nuclear, biological and chemical weapons, whereby it will also happen that computerized weapons become independent and cannot be controlled any longer by human beings. Overall, this is the most important part of Henoah's prophecies.”

Certainly, there is no joy in showing an apparent relationship between events unfolding now and the ancient, very specific warnings within the Henoah Prophecies.

As long as our country's policies are controlled and directed by people and powers bent on world domination at any price, the likelihood of the fulfillment of the worst of the prophecies only increases.

So, because we have sent various CIA teams into different countries to destabilize them and foment upheaval, many times, in order to “protect American interests” http://www.theyfly.com/newsflash4/bltn_30.htm we should stop saying “they hate us for our freedoms” and recognize that we're hated mostly for trampling on the freedoms of others.
